

Grand Totem

Description of Technique

1. Cut a piece of Caribou cardboard lengthwise.
2. Make a cylinder with the cardboard and staple it. Solidify the joint with masking tape.
3. Glue a cardboard plate at each end of the cylinder.
4. Fold a sheet of construction paper in half.
5. Starting at the fold of the paper, draw different patterns and cut them.
6. Unfold the cut-outs and try to create the face of a mythical animal while exploring the symmetry of the patterns.
7. You can modify the patterns as you work, as required.
8. Take a good look at the trimmings; they often create interesting patterns in themselves.
9. Once your mythical animal is completed, glue it onto the cylinder.
10. Pile the cylinders on top of each other.

Materials	BB Product Code
Caribou cardboard 6-ply, pack of 100	3105202
Cardboard plates, 23 cm, pack of 100	1201136
Black construction paper, 23 x 30cm, pack of 50	1355031
