

# Perspective Landscape

## Description of Technique

1. For the foreground, cut out a landscape from a sheet of black Donvale cardboard and glue it onto a sheet of tracing paper.
2. Repeat steps on other sheets of tracing paper taking into account that the more levels of paper there are, the greater the impression of depth will be.
3. Attach the sheets of paper together with tape or a stapler.

Materials	BB Product Code
Tracing paper pad	1501675
Black Donvale cardboard, pack of 100	3100625
Glue stick, 40g	1130442
Double-sided tape	3391042
