

# Textured Mosaic

## Description of Technique

1. Define geometric shapes of different sizes by sticking removable adhesive tape on a sheet of white or coloured paper.
2. Create different textures inside each of the shapes using soft pastels and/or semi-hard pastels. You can stomp the pastels to vary shades, or smear them by placing various textured elements under the sheet of paper.
3. When you're done, remove the adhesive tape.
4. It is recommended to use a spray fixative to protect your work.

Materials	BB Product Code
Cartridge paper, pack of 100	1352814
Construction paper, assorted colours, pack of 50	1354927
Black construction paper, pack of 50	1355031
