

Positive-Negative Print

Description of Technique

1. Engrave a pattern on a rubber tile with lino cutters of different sizes attached to a lino handle. (Use narrow cutters for the outlines and wide cutters to hollow out.)
2. Ink the tile with printing ink. Position another pre-inked rubber tile of the same size on top.
3. Remove gently. The pattern has been transferred to the other tile.
4. Hollow out all parts of the tile that contain ink to obtain a negative and inverted version of the same image.
5. Print on sheets of different coloured paper.

Materials	BB Product Code
Rubber tile, 10 x 15cm	1273382
Lino handle	1161561
Gouges V box of 12	1160324
Gouges U box of 12	1160340
Rubber rollers, 10cm	1273242
Inking trays, pack of 3	1141639
Printing ink, 150ml tube, white	1270610
Printing ink, 150ml tube, cyan	1270602
Printing ink, 150ml tube, yellow	1270594
Printing ink, 150ml tube, magenta	1270628
Printing ink, 150ml tube, black	1270453
Cartridge paper, 23x30cm, pack of 100	1352970
Construction paper, 23x30cm, pack 50	1354752
