

# Decorative Frieze

## Reverse Mirror Image on Cardboard Cutout

### Description of Technique

1. You will need two different-coloured sheets of cardboard, one of which must be twice as big as the other.
2. Place the smaller sheet onto the larger one so that half of the surface is covered.
3. Cut out a pattern in the smaller sheet, turn the pattern upside down and place it on the other half of the surface so that you end up with a perfectly symmetrical pattern in two different colours.
4. Repeat steps as many times as you wish.

Materials	BB Product Code
Mayfair cardboard, 50x66cm, white	3100187
Brillocolor cardboard, 50x66cm, black	3105780
