

# Blazing Parrot

## Description of Technique

1. Cover the spool with a cardboard plate by moulding the curve of the spool, making sure that the rolled up plate sticks out from the wide end of the spool where you will insert a Styrofoam ball.
2. Tie the three objects together. In half a small cardboard plate, draw a triangle in the middle with a pen; press hard.
3. Fold so that you create a prism with a triangular base, and tie together.
4. For the head and beak, glue the prism on another Styrofoam ball, then glue this ball on the wide end of the spool.
5. For the legs, attach a piece of cardboard tube cut at an angle onto the parrot's belly.
6. Paint and decorate.

Materials	BB Product Code
Cardboard plates 15cm Pack of 100	1201094
Cardboard plate 23cm Pack of 100	1201136
Paper plates 23cm Pack of 100	1206044
