

My neighborhood

Description of Technique

1. Print with tempera and assorted materials on Brillcolor cardboard 50 x 66 cm
2. Prepare a good quantity of stiff cardboard strips in different widths and colors.
3. Make stamps by gluing various materials on small pieces of stiff cardboard to create different textures. For more hold, add some on the reverse side as well.
4. Using a paint roller, spread a thin, even coat of liquid tempera on large trays.
5. Dip the edge of a strip of stiff cardboard into the tempera and print onto the paper to create the structure of the building.
6. You can also create the wall covering and patterns with the stamps.

Materials	BB Product Code
Construction paper, 30 x 45 cm	1354927
Liquid tempera	See catalogue
Scratch-foam printing plate, pack of 12	1203967
Stiff cardboard sheet and strip
