

# String Drawing

## Description of Technique

1. Using tempera blocks, apply colour to a string of jute cord approximately 50 cm in length. Keep 5 cm uncoloured in order to hold and handle the cord more easily.
2. Gently place the cord on a sheet of cartridge paper by making spirals and circles with the cord. Let the uncoloured end of the cord stick out at the bottom of the page.
3. Overlay another sheet of cartridge paper on top of your composition.
4. Put your creation inside a phonebook or heavy other volume. Press hard on the phonebook while pulling on the cord with your other hand.
5. Open and behold!
