

# Cloisonné-style Drawing

## with glue

### Description of Technique

1. On a piece of black (or dark-coloured) Donvale cardboard, make a drawing with a lead pencil.
2. Using Arti'stick clear repositionable paint (preferably with the Arti'stick applicator), go back over the outline of the drawing again.
3. Let dry a few hours. The product becomes transparent when dry, takes on the colour of the cardboard and remains embossed.
4. With the colour pencils, add colour between the embossed parts (or *cloisons*) of the drawing.

Materials	BB Product Code
Black Donvale cardboard, pack of 100	3100625
Arti'stick repositionable paint, clear	1131697
Arti'stick applicator tube, pack of 25	1234517
