

Small Decorative Frames

Description of Technique

1. With your hands make a ball the size of a peach with Model Magic modelling clay and place it on the acetate sheet.
2. With a rolling pin, make a 10 x 10 cm, 7-mm-thick square.
3. Make a drawing by placing clay coils, balls and small cakes on the square.
4. Squish the elements together by rolling the rolling pin over the clay square.
5. With a pair of scissors, cut the excess from the sides to form a perfect square.
6. For the frame, twist two or more coils together all around the square.
7. Roll the rolling pin over the work once more. Let dry.

Materials	BB Product Code
Model Magic clay, 4 colours	1370600
Acetate, pack of 100	3132800
Rolling pin	1201433
