

# Foliage Stencil

## Description of Technique

1. For this project, you must first create an herbarium.
2. Apply adhesive putty on the flip side of the plants and place them on a sheet of coloured paper.
3. With water, dilute liquid tempera in small jars in equal parts.
4. Set up a protected and uncluttered workspace. Use the paint bellows to spray the coloured paper.
5. Let dry and remove the stencils.

Materials	BB Product Code
Construction paper, 10 colours, 50 sheet	1354927
Construction paper, earthy colours, 50 sheets	1355114
Corello tempera 500ml, white	1253756
