

# Multi-layered Low Relief

## Description of Technique

1. Apply a generous coat of glue for papier-mâché on construction paper.
2. Add a sheet (construction, origami, fadeless or other type of paper). Repeat both steps until there are at least 6 layers, and finish with a coat of glue.
3. With your nails or a glue stick, scratch the paper layer by layer to reveal the colours underneath. The texture can represent mountains, the seabed, or a landscape.

Materials	BB Product Code
Construction paper Pack of 50	1350742
Origami paper Pack of 100	1360742
Fadeless paper (two colours) Pack of 30	1360858
Glue for papier-mâché 56g	1130475
