

# Multicoloured Checkerboard

## Description of Technique

1. Attribute a different colour to each of the 6 numbers on a die.
2. Attribute 3 geometric shapes to another die: e.g. square for 1 & 2, circle for 3 & 4, triangle for 5 & 6. You can also create your own custom-made dice for this project.
3. With a stick of oil pastels in neutral colours, draw horizontal and vertical lines on a sheet of paper to create a grid pattern (create 12 squares for a 23x30.5 sheet of paper).
4. Throw the die to pick a geometric shape, and roll it again to pick a colour.
5. In the first square, draw the shape in the colour selected, and do the same for all 12 squares.
6. Now you only need the colour die. Throw the die, and apply the chosen colour in the first square using the tempera blocks. Repeat these steps for all 12 squares.

Materials	BB Product Code
Tempera blocks, Bright Blue	1252147
Tempera blocks, Bright Orange	1252204
Tempera blocks, Orange	1252238
Tempera blocks, Bright Red	1252246
Tempera blocks, Emerald Green	1252188
Tempera blocks, Purple	1252345
Tempera tray	1141134
Oil pastels Box of 24	1171156
Cartridge paper 23x30.5 cm	1352806
