

# Coloured Interlace

## Description of Technique

1. Using a black marker, draw a curved line from one edge of the piece of white cardboard to the other.
2. Draw a parallel line next to the first one at a distance of about 1cm.
3. Repeat steps until the page has been filled.
4. Colour in the strips in assorted colours then fill the spaces between the strips using a black marker while leaving the edges of the strips white.
