

Batik On Paper

Description of Technique

1. Pick a theme. (Fish and butterflies are perfect for this technique.)
2. With the oil pastels, make a drawing on the cartridge paper.
3. Choose one or two colours of tempera blocks that contrast with the oil pastel colours. With a paintbrush, apply on the entire surface.
4. In order to bring out the contrasts, make a selection of oil pastel beforehand in either warm colours only or cold colours only.
5. Colour the drawing in one of the colour groups with the oil pastels, then choose and apply the tempera in the contrasting colour group.

Materials	BB Product Code
