

Cardboard Engraving

Description of Technique

1. Using oil pastel crayons, cover the entire surface of the Donvale cardboard.
2. Apply enough pastel so that the white of the cardboard is no longer visible.
3. Apply an even coat of cardboard engraving paste on the entire surface. You can either let dry or do your engraving immediately.
4. With a wooden tool, engrave different patterns in order to reveal the oil pastel colours underneath the coat of paste.

Materials	BB Product Code
White Donvale cardboard, pack of 100	3100427
Cardboard engraving paste, 250ml	1203660
