

## Cellophane

# Stained-glass Window

### Description of Technique

1. Using a pair of scissors, cut a bunch of small pieces of cellophane in the rolls of coloured cellophane.
2. Apply a thin coat of water-based varnish on the cellophane.
3. Randomly spread out the pieces of cellophane on the clear acetate.
4. Apply another coat of water-based varnish on the cellophane.
5. Cut out a shape (e.g. a fish) in a piece of cardboard and throw it away. Apply the hollowed-out cardboard on the sheet of acetate.

| Materials  | BB Product Code |
|--|-----------------|
| Clear acetate, 48 x 63 cm                        | 3131414         |
| Cellophane, yellow                               | 1357169         |
| Cellophane, mauve                                | 1357193         |
| Cellophane, red                                  | 1357219         |
| Cellophane, green                                | 1357235         |
